

Connection element PE100-RT-RC for GEROtherm® geothermal probes

Connection elements for longitudinal force-locking connection of PE 100-RT-RC pipes.

Features:

- Dimensioning PE100-RT-RC / SDR11
- Both pipe sides can be welded in one operation
- Insertion depth according to ISO maximum requirement
- Individual packaging in a foil bag
- Bar coding for fully automatic welding
- Bar coding for automatic component tracking (traceability)
- Welding indicators for visual proof of the completed welding
- Permanently embossed batch identification

Available in the dimensions:

de 32 Art. No.: 104765

de 40 Art. No.: 104766

de 50 Art. No.: 104767
